Full-Stack Engineer

I am a Full-Stack Engineer specializing in building dynamic and scalable web applications. With a strong foundation in software development, I have hands-on experience in both frontend and backend technologies. Passionate about problem-solving and innovation, I continuously learn and adapt to emerging technologies to create efficient and impactful solutions.

EDUCATION

Higher School of Technology (EST)   2024 – Present
Bachelor's in Information Systems Engineering and Web Technologies   Sidi Bennour,, Morocco
Specialized Institute of Applied Technology (ISTA)   2022 – 2024
Diploma in Digital Development (Full-Stack Development)   Agadir, Morocco

PROJECTS

Real-Time Chat Application

github.com/adamchafiki/MERN-Chat

- Developed a real-time chat application using the **MERN** stack and **Redux** for state management.
- Integrated **WebSockets** with **Socket.io** for real-time messaging.

Dhen Bio

github.com/adamchafiki/dhenbio

- Developed Dhen Bio, a platform to buy organic products using **Laravel**.
- Created an **Admin Panel** to manage orders, products, and customers.

Internship Seeker

github.com/adamchafiki/internship-seeker

- Built Internship Seeker, a platform using **Angular** and **Spring Boot** to connect students with internships.
- Implemented features for students to browse and apply for internships, and for employers to post listings.

Estate Management System

github.com/adamchafiki/Estate-Management-System

- Built an Estate Management System using **Laravel**, enabling seamless communication between buyers and agents through a real-time chat feature.
- Provided an efficient platform for browsing, listing, and managing properties.

Blog App

github.com/adamchafiki/MERN-Blog

- Built a blog platform using the **MERN** stack with **Redux**, enabling users to manage posts, like, and comment.
- Designed an **Admin Panel** for user and content management.

SKILLS

- **Web Development**: React, Nextjs, Angular, Laravel, Springboot , Expressjs, Node.js, Tailwind CSS
- **Languages & Tools**: Java, Python, PHP, JavaScript/Typescript, Git, Docker, Linux, Postman
- **Databases**: MySQL, Firebase, PostgreSQL, MongoDB

LANGUAGES

- **English:** Good level
- **French:** B2 (Rosetta)
- **Arabic:** Native

SOFT SKILLS

- **Creativity**
- **Problem Solving**
- **Teamwork and Collaboration**
